[www.jimena-rodriguez.com](http://www.jimena-rodriguez.com)

Born and based in Peru

I'm a journalist that use photography as a tool to inform, but also to show stories that aren't attractive to mass media. I'm always willing to accept new projects and learn from people, their stories and their conflicts. In a country where inequality is constant, I want to capture scenarios with the respect that each person and place deserves.

---
